Those who of you who live by the lake are shocked as we are at its condition. The green growth (suspected to be duckweed) has taken over so quickly! A crew will be here this week to spray it. After spraying, the weeds will turn white and then sink to the bottom.

The board has also approved removal of the sediment below the waterfall, and we are just awaiting the company's schedule to allow them to get down here.

Thanks for your patience.

The Glen HOA Board
