

RESPONSE TO OUR FIRST ISSUE

The feedback to our first issue was extremely positive, so here we are with our second issue. If you have any ideas for articles or if you would like to contribute an article or some news for the Gazette, please contact the editors:

Rick Reaser	16 Glen Lake Dr	647-1096
Miriam Edwards	59 Glen Lake Dr	372-7473

ARCHITECTURAL COMMITTEE

We are still seeking residents to serve on the Architectural Committee for the Glen. This committee would review proposals submitted to the Board regarding architectural changes and make recommendations regarding the proposed changes. If you are interested, please contact Association president, Doug Nordman, 647-9386.

WELCOMING COMMITTEE FORMING

We are also looking for two more residents to help start a Welcoming Committee for the Glen. You might recall how "foreign" things may have seemed when you first moved in. (How do I get in the gate? Who are my neighbors? Where is the nearest post office?) The first order of business would be to put together a welcome package for new residents. Second, committee members should be available to answer questions from new residents regarding things like -- What day is the trash picked up? How do I get my water turned on? The Welcoming Committee will help new people to feel more at home and encourage good neighborhood in our little community around the lake. All that is required is a cheerful smile and a little time. If you are interested, please contact Jenny Artellan, 63 Glen lake Dr, 646-8848.

BABY BOOM - by Miriam Edwards

My husband Dwight and I live next door to young Christopher Elliott who was born about three years ago. He was such a quiet baby that we began to think that news of his arrival was an unfounded rumor. Christopher and his parents Wendy and Mark Elliott are wonderful neighbors. It is a delight to watch the growth and development of the Glen children. Nelly and Ivan Greene's daughter, Daniela Caroline, was born Sept 4, 1987; Adrienne and Rick Reaser and Ricky (age 3) welcomed Robin Rose on Nov 11, 1987. Drew Nottenkamper arrived on Mar 7, 1988 in time to move up the hill to Glen Heights; and two days later, Bob and Evelyn Franco became parents to Michael Robert. Denis and Monique Carrier had a son, Marc Andre', on Apr 30, 1988. Marc Andre's sister Marie Michelle is 2 years old. Fran and Jean-Philippe Giacamini's daughter, Colomba, is 2 years old. Hyon and Dae Lee's son, Eugene, is now 4 years old. Two other children born at the Glen, James (3 yrs old) and Alison (Dec '87) have just moved with their parents, Lisa and Mark Risley to the SF Bay area. I'll bet you didn't know there were so many small children in the Glen.

GLEN HEIGHTS PEDESTRIAN GATE KEYS STILL AVAILABLE

If you desire to take the "shortcut" through Glen Heights to walk to the shopping area, you will need a key to their pedestrian gate. Keys are still available from Association president, Doug Nordman (647-9386) for \$1.25. See Doug to purchase one.

CALIFORNIA CONSOLIDATED PRIMARY ELECTION

Remember to vote on Tuesday, June 7. The location for most is the School District Board Room on 555 Sinex. If you haven't received your sample ballot or need to register for the November General Election, call the Monterey County Registrar of Voters at 1-424-7621.

ENTRY GATE UPDATE

Work on the gate is nearly complete. There were several delays associated with the new keypad and the weak phone circuit. The materials and plan to fix the pedestrian gate are now in hand. The entire gate system should be totally fixed by the time you read this. Please note the recent guest entry procedure change. Press "5" only on your phone to let guests in. ("# 5" and "* 5" no longer work.) If you have any problems with the gate, please let Association president Doug Nordman know (647-9386) so we can assure that the repairs and reprogramming efforts are a total success.

GLEN RECYCLING - TURNING GARBAGE TO GOLD

Our efforts to raise funds for Glen special projects are in full swing. Please bring your aluminum cans and glass bottles to the boxes by your mail box. Your contributions are picked up daily and will help raise funds to keep the Glen looking good. Make sure the cans are aluminum. You can tell if a can is aluminum by trying to stick one of your refrigerator magnets to it. If the magnet doesn't stick to the can, please donate it to a worthy cause. Direct any questions regarding this project to Marge Nordman, 647-9386, 67 Glen Lake Dr.

PARKING IN THE GLEN

The following are excerpts from 'Rules -- The Glen of Pacific Grove.' "Residents are encouraged to park their cars in the garage. Visitors, houseguests and residents with oversized vehicles should use designated parking inlets for short-term parking. Households having more than two cars per unit should park additional automobiles in the parking area adjacent to the front gate." From time to time we plan to print excerpts from the Rules, Bylaws, Covenants, Conditions and Restrictions of the Glen as the Board of Directors sees fit.

JOHN VANCE - LANDSCAPER EXTRAORDINAIRE

Things are looking greener around the Glen thanks to our landscaper John Vance. But first you ought to know that John is recovering from a recent lung collapse and exploratory surgery. John is doing fine and we hope to see him back on the job in early June. In the meanwhile, his son is taking up the slack. John has always loved horticulture and gardening, but it took several different careers before he started doing it professionally. John first spent 20 years in the Army, touring the world. While in Germany, he met his wife of 34 years, Lilo. Together, they raised seven children, six sons and a daughter. All the children now live in this general area. Upon retiring from the Army and moving to Pacific Grove in 1968, John and Lilo entered the restaurant business. After many years of working seven days a week and 16 hours a day running three restaurants, John and Lilo moved on to other ventures. Lilo worked as a manager in a major department store in downtown Pacific Grove for 13 years. She now manages two clothing stores in Carmel. John eventually attended Monterey Peninsula College where he received his degree in his first love, ornamental horticulture. Now he is with us at the Glen and the residents couldn't be happier. As John can attest, keeping the Glen's grounds in tip top shape is no small effort. If you have any special gardening or maintenance requests, we ask that you direct them to the Association president. Please refrain from giving your requests directly to John or his helpers. In this way, we can assure that all the tasks will be accomplished effectively and efficiently. The Board can then get a better handle on what it really takes to keep the grounds of the Glen beautiful. We wish John a speedy recovery since we truly miss his smiling face on Glen Lake Drive.
