The Glen Gazette

A newsletter for The Glen of Pacific Grove Residents

New Management Team Thelander Property Management has replaced The Management Trust as our Property Manager. Liane Cunningham is now our Community Manager. She can be reached at (831) 758-2855, Ext 6 or liane@thelandermanagement.com. In case of an after-hours or emergency request, simply call the phone number above, follow the prompts and you will be connected with an operator who will page a management representative.

Next Board Meeting Wednesday, January 21 at 5:00 pm. We will be using GoTo Meeting instead of Zoom. A link will be sent out along with the Agenda the week prior.

Reporting Landscape Issues If you need to report an issue with landscaping (fallen branches, broken sprinklers, etc) please contact management. Do not contact the landscapers directly, nor should you contact any board members or community volunteers. Contacting our community manager will initiate the process and is the best way to deal with issues regarding our outdoor landscaping.

Tree Trimming We will be trimming trees and shrubs throughout our neighborhood in the next few weeks. This has a double benefit of making our grounds look nicer and also helps with wildfire risk mitigation. We are still looking at trying to get Firewise Certification in the future and this is one of the first steps in the process.

Flooding/ Storm Drain Cleaning / Gutter Cleaning The recent series of winter storms brought heavy rain and flooding to some of our residents. We are working to assist owners with flood damage and will be working with professionals to make changes that will reduce the risk of this happening again. This will be addressed at our next board meeting.

We appreciate all your support!

Board of Directors
Mike Levis, Lindsay Munoz, Neil Shea, Karen Kessler and Gary Brown
