

June 2026

The Glen Gazette

A newsletter for The Glen of Pacific Grove Residents

Next Board Meeting Wednesday, June 17 at 5:00 pm.

Roof Project starts June 8
Just a reminder that Phase II of the roofing project starts on Monday, June 8 and will last about 10 weeks. Units 10 -16 will be first, then the construction will move up the hill. Phase II includes five buildings – Units 10-16, Units 26-32, Units 34-42, Units 44-48 and Units 50-58. For more information, please refer to the email notification sent on June 2. When driving around The Glen, please be cautious and aware of all the activity happening near the construction work. Also please watch for nails and other debris in the street. The crew should pick up each day, but if you see anything please notify management or one of the work crew members.

Proposed Dog Park at Arnett Park – Once again the Pacific Grove Recreation Board discussed establishing a dog park at one of PG's parks. Several of The Glen's residents attended the May 28 meeting and several spoke in front of the Board. At this time, Arnett is not a front runner for the proposed dog park, however, it is still being mentioned as a possible site. We want to thank those who attended the meeting and appreciate all the thoughtful comments made to the Rec Board. We will continue to monitor the meetings and report any proposed changes regarding Arnett Park.

Parking Rules Violations – A reminder that residents are not allowed to park overnight without special permission from management. We have a small number of residents who continue to violate our parking rules. Please be respectful of others and follow the rules.

Security Issues – In the past few weeks, there have been a couple of security issues around The Glen that have been reported to the Pacific Grove Police Department. On April 28 a broken window was reported and on May 15 it was reported that a suspicious person was walking on Glen Lake Drive. The suspicious person was reported late at night. These reports were published in the police logs of the Carmel Pine Cone, however, neither management nor any board members were notified. We are publishing these events not to alarm anyone, but to request that if someone sees something suspicious, in addition to notifying the police, please make an informational call to management, so that the board and management can take appropriate security steps.
